## NEWS FROM THE CAPITAL.

## TWO CONGRESSMEN ENGAGE IN A DISGRACEFUL ENGAGEMENT.

They Start for the Basement to Fight it Out, but are Prevented From Going by Friends, but Finally Come to Blows.

## Serious Charge Against a Senator.

Washington, July 17.—The weekly difficulty between Representatives Cobb, of Indiana, and Laird, of Nebraska, at the floor of the house of representatives a couple of weeks ago, in regard to some land interest by the latter, culminated in a sanguinary encounter and the further entrance to the floor of the house, shortly after 1 o'clock.

It appears that Messrs. Cobb and Laird met and talked over the dispute in which the former accused the latter of being a perjurer, and that they agreed to go down into the basement of the capitol and fight it out.

Some one overheard the arrangement, and went at once to Mr. Fayson, of Illinois, who is a member of the committee on public land, of which Mr. Cobb is chairman, Mr. Fayson hurried out of the floor of the house and overtook the members as they were going stairs to the basement. He expostulated with them, and finally, as he supposed, succeeded in persuading them to desist.

The three men retraced their steps and when they arrived at the entrance to the corridor, running east and west, and occupied the south side of the floor of the house, they stopped and the two quarreling members renewed their dispute.

"Well," said Laird, angrily, "you are a—(4 or 100) any way."

"And you," said Cobb, "you are a—perjurer, and I can prove it."

Mr. Fayson stood between the men at this moment, but quick as a flash, and with the precision of a trip hammer, Mr. Laird's hand went over Mr. Fayson's shoulder at the neck.

Had the fight occurred in the open street, the distance was so great that it is only thought Mr. Cobb lightly on the lower part of his nose and upper lip. Blood trickled out of Mr. Cobb's nose, and he was powerful man, six feet two inches and weighing 230 pounds, rallied to resist the blow. Mr. Fayson separated the men by the assistance of some bystanders and the difficulty ended.

## BOYCOTTING A VILLAGE.

The Result of Cutting Down the Farmers' Highways.

DETROIT, Mich., July 17.—The boycott has broken out in a new spot. The thriving little city of Battle Creek, in this state, is unfortunately having rather narrow streets.

When the farmers' teams came into the city and hitch their teams at the edge of the sidewalks with their wagons of all descriptions, and loaded with every variety of produce projecting into the center of the street, the passage ways are rendered very narrow and difficult of use, and there has been much consequent jamming.

A few nights ago some one or more persons spent all night in going through the main business streets cutting down all the hitching posts.

This rather pleased the citizens generally, and they were disposed to applaud the work of the midnight marauders, except the merchants who forewarn the trouble with their trade.

Efforts to restore the missing posts by action of the village council met with resistance on the part of the citizens, when suddenly the farmers in the surrounding towns took a hand in the business, and sent out word throughout the border, "boycott Battle Creek. It's a stir on unconstitutional ground. Take your trade to the nearest competing point." And now there is a rushing about of the farmers' teams, and they are threatening and excitement that reminds one of a hornet's nest with one end of a pole making things lively.

The oldest council has been postponed until next week, owing to the continued illness of Earl Granville, the absence of Earl Spencer on the continent, and other reasons.

The Tories who are hanging for office denounce the delay as unconstitutional, and fear that Mr. Gladstone will stick to his rights and withhold his resignation until he hears the result of the last polling which will take place at Orkney on the 20th.

A FINE man belonging to Wm. Dorsey, who resides in Lewistown precinct, was caught on a barbed-wire fence yesterday, and in her struggles was badly lacerated.

MAYVILLE's chances for a public building have "gone glimmering." The veto of the appropriations for the Dayton and Zanesville, Ohio, buildings settled it. We didn't need it, anyhow.

ABOUT \$300,000 worth of tin is annually imported into this country, but this will cease when the Black Hills tin mines are developed. They cover an area of 700 square miles.

DAN. FERRIN was one of the first Sheriffs to settle up his accounts for taxes last year. He has been prudent, efficient and one of the best officials the county ever had. He deserves another term, and will get it by a handsome majority. Let his friends see how large he can make it.

The Superior Court Convention at Lexington yesterday to nominate a Democratic candidate for Judge in this district, was a regular love-feast. Everything was to use a new phrase, "monotonously harmonious." Judge J. Q. Ward had no opposition at all and was nominated by acclamation. He will hardly be opposed in August, as the district is really Democratic. He has made a good Judge and deserved the handsome endorsement tendered him. Hon. G. S. Wall, candidate for Congress, and Dr. John T. Fleming were among the delegates from this county. The convention was held in the new court-house, which was profusely decorated for the occasion with flowers and tropical plants. Judge Wall spent in very flattering terms of the courteous treatment shown the delegates by the people of Lexington.

Is the soldiers at Morehead could draw up both "factions" in a row and shoot the one of them they would become public benefactors. It is impossible to estimate the injury which a few brutal desperadoes have done Kentucky. One who traveled through North and East to be humiliated at the reputation the State has acquired. It is safe to say our population would be one-fourth larger and the State one month more prosperous, but for the numerous "factions" and fights that fill the dispatches.—Louisville Post.

Have patience! The "mills of the gods grind slowly, but they grind exceedingly fine." It is long time that has no turning. The injury to the State has been great, but the desperadoes are meeting the fate they deserve. A. M. Bowling is in the penitentiary for twenty-one years, and Jeff, his brother, is under sentence of death. It will come Tolliver's turn, and Humphries' and Logan's before long. Mark that!

#### The Medical Use of Eggs.

(Exchange.)

For burns and scalds there is nothing more soothing than the white of an egg, which may be poured over the wound. It is softer, as a varnish for a burn, than cod-liver, and it is always on hand, can be applied immediately. It is also more cooling than the "sweet oil and cotton," which was formerly supposed to be the surest application to allay the smarting pain. It is the contact with the air which gives the extreme discomfort experienced from ordinary accidents of this kind, and anything which excludes air and prevents inflammation is the best thing to be applied.

The egg is also considered one of the very best remedies for dysentery. Beaten up lightly, with or without sugar, and swallowed at a gulp, it tends by its emollient qualities to lessen the inflammation of the stomach and intestines and by forming a transient coating for the organs enables nature to assume her beautiful affair over the disease. Two, or at the most, three eggs per day would be all that would be required in ordinary cases; and since the egg is not merely a medicine, but food as well, the lighter the diet otherwise, and the quieter the patient is kept, the more certain a rapid is the recovery.

#### Eastern Kentucky.

Mr. John R. Proctor, State Geologist, is credited with saying: "I have just returned from the immense coal fields of Powell, Wolfe, Breckinridge and Lee Counties. These samples of coal which you see here are the finest specimens of coal and caking coal I ever saw. Not only are these counties rich in coal, but they are continually increasing in an agricultural yield of the corn, and meadows in fine condition. In Breathitt, where I remained the longest, I noticed the people are orderly and attentive to business, and in the majority seat, laid the foundation of a large academy, and established a circulating library of 2,000 volumes. There are no better people to be found in the State than you'll find in Breathitt. And let me say, I think if the newspapers of Kentucky would devote as much time to calling attention to the resources and evidences of thrift and general prosperity as they do to lawlessness, they would accomplish a vast more good to the State."

#### One of the "Veterans."

(Brookline Eagle.)

The "veteran" who contracted spinal meningitis from a fall from a scaffold during the war is writing to the papers to say that in his opinion Grover Cleveland is small potatoes and few in a heap.

#### CHICAGO ANARCHISTS.

A JURY IS FINALLY SECURED TO TRY THE HAYMARKET RIOTERS.

The Eight Men Take Their Seat in Judge Gary's Court to Answer for the Massacre of May 4—They Are Composed and Breathe no Unpleasant—Adjournment.

CHICAGO, July 17.—After many weeks after interminable delay spent in exhausting every device for delay, employed by crafty lawyers, the trial of the Anarchists is to begin in earnest. This morning the eight men who are to answer for the Haymarket massacre, take their seats in Judge Gary's court. They are composed; their manner betrays no sense of uneasiness; apparently they are careless of the past, and indifferent as to the future. Without the room is congregated a large crowd, anxious to curiosity they are unable to gratify. Down stairs is another crowd, and still another and a larger one is congregated in front of the entrance to the criminal court building.

The record of a curious stare the windows of Judge Gary's court, in which the opening scene in a great drama, the closing one of which may land eight men over the death trap, is being portrayed. Every day in a matter of such supreme importance is of interest to these curiosity seekers. They envy the privileged few who are to come to the court room, but even these favored ones meet with disappointment at the very outset.

Another delay was asked for. This time the state rested its case. On the morning of the court, Mr. Grinnell told Judge Gary that he was reluctantly compelled to request an adjournment of eight o'clock. He said he had a good reason for asking this. He did not want to say what the reason was, but it was of great importance to the case. Then his assistant, Mr. Wallace, explained to him, and Mr. Grinnell said an adjournment until 11 o'clock would do.

Mr. Foster inquired what was the reason. Mr. Grinnell did not want to declare it publicly, but assured the lawyer he would tell him privately. He did so, and the desired adjournment was allowed.

The reason for the adjournment is given in a rumor to the effect that the state has met with some trouble on account of its witnesses. The story is that the state has met with some trouble on account of its witnesses. The story is that the state has met with some trouble on account of its witnesses. The story is that the state has met with some trouble on account of its witnesses.

#### FAILURE OF THE HOP CROP.

Vines Irregularly Damaged by Vermin. Many Fields Entirely Destroyed.

UTICA, N. Y., July 17.—The reports from various sections of the hop producing regions of Central New York, give the following returns: The reports all agree that lice and honey-dew have committed irreparable damage to vine. Waterbury, which is known as the Kent of America, will yield less than half the crop of last year.

Some of the growers have their last year's crop still on hand, and are taking under consideration the poor outlook for this year they will hold for higher prices. A grower in North Brooklyn, Madison county, who had seventy acres of hops, had them entirely destroyed by lice. General opinion prevails that hops of 1885 will fall for from thirty to forty cents per bushel. The loss to the growers is in great despair, as many have the largest part of their farms under hop culture.

#### His Bones Will Meet in Peace.

NEW YORK, July 17.—The project to remove the bones of Peter Maroncelli, the Italian patriot, who died in this city forty years ago, to his native land, in Italy, is likely to fall by Italian red tape. A letter was sent to the office of the board of health by the Italian consul general, Giovanni Ratto, recently, stating that before the patriot's remains could be permitted to enter the Italian kingdom, an official certificate that no contagious disease prevailed in this city in August, 1846, would have to be produced. Dr. John T. Nagle has to write a reply that it would not be possible to furnish such a certificate, because smallpox, typhoid fever, scarlet fever and whooping cough prevailed in the city at the time.

#### Charged With Robbing His Own Bank.

LEMA, O., July 17.—The marshal of Bluffton, Ohio, yesterday arrested O. S. Langan, charging him with burglarizing his own bank. The charge was brought by Warren Clark, one of the depositors. On the 25th of last April Langan was proprietor, was broken into, the safe cracked and about \$10,000 in money and papers taken. Since then the feeling against Langan has been very bitter and he came to this city, where he was arrested. He was bound over to the grand jury.

#### Southern Illinois Prohibitionists.

SALEM, Ill., July 17.—The Prohibitionists of Southern Illinois are moving more active than ever before to elect county and other officers. A newspaper entitled the Southern Illinois Prohibition Battle Axe has been started at Odell. Full county tickets have been nominated, and a convention will soon be called to nominate a candidate for congress, and M. E. Drum, of the Battle Axe, will likely be nominated. A full county ticket has been put in the field here, and meetings are being held all over the county.

#### Ohio's Oil Field.

LIMA, O., July 17.—The May Willard, five miles east of this city, was drilled in and a big flow of gas and a good strike of oil reached. The Holmes No. 3 drilled in yesterday afternoon, with several good flows over the derrick. Vandegrift's Jones' well at Centerville, about twenty miles north of Lima, was drilled in and made a fair showing. The Fe well has been flowing through the casing since it was shot last Saturday. The well at Dayton is down 1,700 feet and drilling in limestone.

#### "Through Wonderland."

CINCINNATI, July 17.—Maj. Wells, passenger agent of the Cincinnati, Indianapolis, St. Louis & Chicago railroad, has a very handsome descriptive book issued by the Northern Pacific railroad, and called "Through Wonderland with Wendell Schwabach." It describes the grand scenery of the Northern Pacific, and can be had upon application to Maj. Wells, Cincinnati, O.

#### Hill in the City Jail.

RICHMOND, Va., July 17.—A riot among prisoners in the city jail occurred here, but a squad of efficient policemen, numbering twenty summoned in quenching the affair before serious trouble occurred, by arresting the ringleaders.

#### DISHONEST DEALERS.

HOW UNSUSPECTING HOUSEWIVES ARE OFTEN SWINDLED.

Short Measures and Their Ingenious Construction—False and Ringed Bottoms—Tricks That Almost Defy Detection—The Schemes of Fruit Peddlers.

The season is approaching when economical housewives will begin to lay in fruit for preserving purposes. Probably it has occurred to many how the peddler could pile the measure so high and yet when he had gone the purchase would pan out only three quarts to the gallon. Of all tricks and pursuits these dishonest dealers are the superiors as far as tricks are concerned. Such swindling is, of course, in a petty way, but when the extent of their ill-gotten profits is astonishing. This is especially the case when there is a scarcity in the market and prices have considerably advanced. It is the frequent boast of these dealers that they buy at wholesale, and yet they are able to sell at the same rate. This is true. Of course, their profits must come in some other way.

To many a housewifely housewife no doubt this seeming paradox has been an unsolved puzzle. To the initiated or those behind the curtain nothing could be simpler. The measure must be short, certainly, but how can the peddler so arrange it as to deceive the law officers and defy the peddler's own conscience? The answer is, who is ever trying to get full value for her money? He succeeds, however, and it is comparatively rare, considering the amount of such business cases, that he is caught at the trick.

ALL SORTS OF FALSE MEASURES. The city's supply of false measures is so numerous false measures he has confiscated during his term of office. They are of all sizes and shapes, and it is interesting to see how ingenious dishonesty makes some people.

In the inspection a rule is used which tests to an infinitesimal amount the contents of a measure. The sealer and his assistants are continually on the watch. The dealer never knows when his store will be entered or his wagon stopped. The law provides a fine for all inspections, and, of course, the more strict and energetic the officer the greater his compensation.

The false bottom is a familiar trick, and as the hills are no longer gone out of fashion, however, it is as successful as when first sprung upon an honest and unsuspecting woman. There are many ways of this "doctoring" a measure. Sometimes the other bottom is soldered in after it has been tested and sealed. Then in other cases a piece of wood is placed in the bottom as if to brace and render the measure more firm and solid. The most ingenious plan, however, is to cover the bottom with cement, or such like weight. This renders the bottom so heavy that the dealer is unable to lift it. It is only by the additional and unusual weight that the dealer is able to get away with. Of course outwardly the measure is perfectly correct, and bears the official stamp of its truth.

#### OTHER WAYS OF CHEATING.

Another way is to take the measure and beat down an inch or so the hoop or iron band that binds the top. The portion remaining above the hoop is then weighed, and its weight tested by the rule that the shortage is found. Probably the shrewdest of all the tricks is to use a false bottom. This is a trick of the two portions will open inwardly and close immediately when the measure is taken up. It is used principally in measuring apples and potatoes or such articles. The dealer first carefully places it upon an apple or potato, the bottom is forced in, and, of course, considerable of the space is taken up.

Almost every one has noticed how balanced are most of the measures used by street peddlers. It is a natural conclusion that they have been accidentally knocked out of shape while being tossed about. In fact, however, it is a carefully planned intention, for obviously the dealer is benefited by the masking in. In weighing, particularly in berry time, is to crush a quantity of the fruit on the bottom. It adheres, of course, and the purchaser falls short of the required amount. #### LABOR AND THE SOLDIER.

Mr. Powderly Addresses the Green Glass Bottle Blowers' Association.

ATLANTIC CITY, N. J., July 17.—Mr. Powderly, in his address to the Green Glass Bottle Blowers' Association here yesterday, referred rather bitterly to the presence in town of the Fifth Maryland regiment and to the honors paid such military organizations. No organization of workmen demanding their rights would be received with such admiration and deference. The soldier class stood as a menace to labor and a barrier between labor and capital.

He added that the Knights of Labor, who compose two-thirds of the regiments of each state, will not re-enlist when their terms expire. Let the men who are in the ranks and in the rollbooks, the men who oppose labor, fill up the ranks. Then when the two sides are arrayed against each other, we will see who will win. They will be too cowardly to do it. Mr. Powderly made a vigorous argument in favor of the glass men joining the Knights of Labor, and the proposition was carried.

#### Affairs at Peabody.

LYNN, Mass., July 17.—The situation at Peabody remains about the same, with the exception of the 100 men in the employ of Dennison, who, having returned to work. Over \$20,000,000 is invested in tanning and curing business in Peabody and Salem, Massachusetts, and in Peabody. The product of the two places will amount to \$10,000,000 a year.

#### A Gas Company's Plant.

CHICAGO, July 17.—The plant of the Chicago Gas Company was sold to John C. Leach, supposed to represent the Cummings, Kent, and Rayburn syndicate for \$1,650,000. George W. Smith was the only other bidder, and he bid off for \$1,945,000. The company had issued bonds for two million dollars.

#### HEADQUARTERS.

Seersucker Coats and Vests; Silk Pongee Coats and Vests; Alpaca Coats and Vests; Children's Waists; Light-Weight Suits in various fabrics; prices LOWER than any other house in the State.

The season is here for them and we have them for you.

Seeing is believing, so come and look at them.

#### HECHINGER & CO.

ODDFELLOWS' HALL.

#### Sale of Runyon & Hocker's Stock.

Owing to expiration of lease of store at an early day, I will offer on MONDAY, JULY 19 and for two weeks thereafter, the following unprecedented bargains in Colored Wool Dress Goods, 36 inch wide, 1 SATURDAY, JULY 17, 1886.

**ROBERT & MCCARTHY,**  
Publishers and Proprietors.  
To Whom Address All Communications.

INDICATIONS.—"Generally fair weather, stationary temperature."

WHITE soap 5 cents, at Calhoun's.

The Bourbon Fair will begin September 7th and continue five days.

CHICKEN thieves made a successful raid on Charles Miller's and Frank Ransom's coops last night.

W. S. FANT, of Fleming County, raised fourteen acres of wheat that yielded thirty-eight bushels to the acre.

AYER'S Sarsaparilla is the most effective blood purifier ever devised. It is recommended by the best physicians.

MR. T. F. KITE will recognize the Knights of Labor Assembly of this city. The General Assembly has authorized him to proceed with the work.

RUNTON & HOCKER's stock of dry goods must be sold. The trustee's "ad" in another column tells the story. Bargains all through the stock. Call early and see them.

If you value your eyesight, use nothing but the Diamond Spectacles. They are pronounced by high scientific authority, as well as by thousands who have worn them, the best in the world. They are for sale by Ballenger.

REV. R. CECIL has returned from his trip to the mountains. Regular services at Central Presbyterian Church next to-morrow. Sunday School and Bible Class at 9:30 a. m. Preaching: 11 a. m. and 8 p. m. All are invited.

TRAVEL over the new Kentucky and Indiana bridge at Louisville is very gratifying to its projectors. In one day recently, more than 400 vehicles and 3,000 foot passengers passed over it. It was thoroughly tested Thursday.

THE number of one-armed young men seen driving out with young ladies these evenings is truly appalling. An old timer at our elbow says that one arm is invariably lost through an engagement. Don't believe it!—Cattelsburg Democrat.

NICHOLAS County has no saloons within its borders now. The prohibition law attempt will be made by some of the saloon-keepers to continue the business under a distillers' license, selling by the quart.

It is reported in the Bee and Times, of Ripley, that Colonel Buell, who figured so prominently in Columbus and Mayville Railroad matters a few months ago, is now in jail at Rochester, N. Y., on two charges, the principal one of which is bigamy.

A ROMANTIC marriage took place in the Southern part of the State the other day. The couple, accompanied by a party of their friends, boarded a train for Evansville, Ind., and the ceremony was performed while the coach was moving forty miles an hour.

HALL'S Vegetable Sicilian Hair Renewer never fails in restoring gray hair to its youthful color, lustre, and vitality. Dr. A. A. Hayes, State Assayer of Massachusetts, endorses it, and all who give it a fair trial unite in grateful testimonials to its many virtues.

THE Robertson County Democrat says of our fair. "It is held at one of the best grounds in the State, and its showing and track for trotting are excelled by none anywhere; besides the stock exhibits are of the very best. And no people on earth will do more to make a visitor enjoy himself than those at Mayville."

WINFIELD BUCKLER, Esq., who was sent to the asylum from Paris a few weeks ago, is reported no better. It is thought he will not survive much longer. The authorities at the asylum say his case is one of worst that ever came under their notice. He is kept confined in a padded room, so that he cannot injure himself in his mad ravings. No one is allowed to see him, as he raves all the time. His case is certainly one of the saddest on record.

PURSUANT to announcement, Mr. Richard R. Waters, of Newport, Ky., lectured at the court house last night upon the "Mistake of Ingersoll." The speaker was introduced to the audience by Mr. C. L. Sallee, and for nearly an hour spoke in a highly entertaining manner. His elaborate address evinced careful preparation and showed him to be a scholar and an orator of uncommon ability. The lecturer handles Col. Ingersoll's familiar weapon, that of ridicule, with appropriate ease and telling effect. There were numerous fine rhetorical passages delivered in as chaste, beautiful and classic language as ever Grecian or Roman story told. The lecture was a great intellectual treat, and will be long remembered by those who heard it.

The "Four-Widow Racket" Again.

The "four-widow racket" was worked successfully, again, on a couple of fellows at Cincinnati, the other day. People will not, it seems, be warned by the fate of others. The recent experience of one of our prominent liver men will probably keep Mayville men on their guard, but it will do no harm to copy this latest scheme, so that our readers may keep themselves posted. George F. Nugent and James Farrell are the parties who were victimized this time. They reside in Cincinnati and ought to have known better. The Notes of the "scheme" are:

"Farrell had noticed an advertisement in the Enquirer that a widow desired to entrust her baroque horse with some one who could have the use of it for its care and feed. He called at 329 Walnut street, as per advertisement, and found the place to be a saloon. He was directed to a stable in the rear, however, where a colored man showed him the horse. To all appearances it was a sound animal. The colored man stated that the lady had changed her mind about the horse and wanted to sell him and the harness for \$75. The negro said the horse was all right, not yet eight years old, and that he had driven and cared for him for several years. Farrell thereupon purchased the horse, ready to be sprung on as many other victims. Farrell reported the matter to Colonel Dettich, who detailed Detective Jim White to arrest Marks, who being unable to make a satisfactory explanation, was locked up on a charge of obtaining money by false pretenses. The business is carried on in the alley next the one which was raided a few weeks since for the same trick."

THE Kentucky Homoeopathic Medical Society was organized at Lexington, Wednesday. Nearly every section of the State was represented. The election of officers resulted as follows: President, Dr. J. Lucy, Georgetown; Vice President, Dr. George M. Ockford, Lexington; Recording Secretary, Dr. M. C. Worthington, Yarnes; Corresponding Secretary, Dr. C. P. Meredith, Elizabethtown; Treasurer, Dr. J. A. Van Sant, Mt. Sterling; Board of Censors, Drs. L. A. Monroe, Louisville, H. C. Kesselman, Midway; Auditors, Drs. J. T. Van Sant, Paris, H. C. Kehoe, Cynthiana, W. M. Daugherty, Corinth.

Bureaux were appointed to prepare papers for the next annual meeting, with the following chairman:

"Materia Medica"—Dr. A. L. Monroe, Louisville. Clinical Medicine—Dr. J. C. Welch Nicholasville.

Osteo-Dr. T. H. Hudson, Frankfort. Gynecology—Dr. W. M. Daugherty, Corinth. Diseases of Children—Dr. H. W. Bewlay, Lexington.

Surgery—Dr. M. Dills, Carlisle. Sanitary Science—Dr. O. H. Buck, Paris. A Committee on Legislation was also appointed, consisting of Dr. H. C. Kehoe, Dr. J. T. Van Sant, C. S. Holton, and Geo. W. Righter.

Drs. M. C. Worthington and C. S. Holton and H. C. Kehoe were former residents of this county.

#### Attempted shooting.

Joseph Hall was arrested this morning for attempting to shoot several parties near Rectortville last evening. The prisoner lives in that vicinity and from Deputy Marshal Dawson, who made the arrest, we learn the full particulars. Hall's fellow named Bradley have been counting the same young lady for some time past. Bradley was more successful in his suit. Last evening he met his rival, Hall, who drew a pistol, thrust it in his face and attempted to shoot him. Bradley ward off the shot by striking Hall's hand, the ball passing through his hat. Hall afterwards met the young lady in question and two of her companions, and frightened them terribly by shooting several shots at them. He then came to this city, and was found by Dawson at the house in Snyder's Hollow. When placed under arrest, two pistols were found on his person. He resisted the officer and attempted to grab a pistol out of his hand, but Mr. Dawson was too much for him. He was handcuffed and turned over to Constable John W. Holliday, who took him back to Rectortville for trial.

#### Circuit Court Proceedings.

Ham Turner was convicted of carrying concealed a deadly weapon. His punishment was fixed at a fine of \$25 and costs, and confinement in the jail at hard labor for ten days. A new trial was refused and an appeal prayed for and granted.

John Culbertson was tried on charge of carrying a deadly weapon concealed, and acquitted.

Thomas Guilfoile was tried on two charges of selling liquor to a minor. The jury found him not guilty in both cases. George Hughes, a colored boy who looked to be about fifteen years old, was convicted of carrying concealed a deadly weapon, and adjudged to pay a fine of \$50 and costs, and was sent to the jail for thirty days at hard labor.

The jury in the case of Wm. Fanaler, charged with suffering unlawful gaming on his premises, were unable to agree in a verdict, and were discharged.

#### Rickets Acquitted.

The examining trial of Luther Rickets for killing "Dutch Henry" was held at Mt. Olivet this morning and resulted in his acquittal.

#### Wages in 1900.

(From McMaster's History of the People of the United States.)

The condition of the wages-class of that day may be well examined; it is full of instruction for social agitators. In the great cities unskilled workmen were hired by the day, bought their own food and found their own lodgings. But in the country, on the farms, or wherever a hand was employed on some piece of work, they were fed and lodged by their employer and given a few dollars a month. On the Pennsylvania canals, the diggers ate the coarsest diet, were housed in the rudest sheds, and paid \$6 a month from May to November, and \$5 a month from November to May. Hod-carriers and mortar-mixers, diggers and choppers, who, from 1790 to 1800, labored on the public buildings and cut the streets and avenues of Washington City, received \$70 a year, or, if they wished, \$60 for all the work they could perform from March to December 20th. The hours of work were invariably from sunrise to sunset.
